

Miracle! Mother Nature Has Appeared To Me

**A Short Film
By Tommaso MiceliMalaguti
& Mario Pascariello**

Extract from the review edited by the Team of the Beyond the Curve International Film Festival (Paris - France – 2020).

Mario Pascariello has shown some beautiful narrative to describe how we often neglect something precious just because it is free... The narrative has been good and precise ... It is very profound to see the childishness shown by Mario Pascariello narrating the lines... The calm, happy face resembles the touch of sanity. The composed attitude itself sparkles upon the sublime madness hidden underneath that praises every bit of nature religiously... It is an absolute honour to witness someone who is physically so mature ...yet, mentally a child who has just begun to understand nature and admire the beauty of it. Thank you Mr. Mario Pascariello...for this wonderful journey! May Mother Nature appear to us all...!

Extract from the review edited by the Cult Critic The Film Magazin (Kolkata - India - 2020).

... There is no particular genre in this film. The camera jerks have made the film look interesting. If you're in a hurry but want to watch a film then this short is the right one for you. This short but snappy film will show the world that you have never seen. But there is no use of VFX or graphics- it is done through explanations.

... The director duo of the film Mario Pascariello and Tommaso MiceliMalaguti have done a great job. Mario has also written the film. Mario's lone role in the film is really appreciating. His candid approach in explaining things make the film worth watching... Camera use may fascinate many people... If you are curious about nature then you will surely love it. There is a particular scene when the narrator is explaining the process of turning an orange from green to orange. According to the narrator, this

is the biggest miracle of the nature... I recommend this film for everyone - from kids to adults. Each and everyone will be able to appreciate the film and interpret in their own way.

In the years 2020 and 2021 the work achieved the following results in International Festivals: 42 awards, 5 nominations for the best of the best, 6 finals, 1 semifinal, 2 quarter finals, 21 selections.

Directors Statement

The film was shot on location but not on a planned set. That means, it was filmed live during the existential flow. The narrator's reflections have sprung suddenly, though they are not improvised; they are the result of a growth and a settling occurred over a life lived with intensity and passion.
